

Bavaro Punta Cana Boogies- great adventure on Dominican Republic

Bavaro Punta Cana Boogies

One day, when we were lying on the beach, one guy came to us and offer 'great adventure'. He said he can sell us one-day trip on Bavaro Punta Cana boogies (cars similar to ATV).

We don't like this kind of sellers and pointless trips for [all-inclusive](#) guests. Nevertheless, this time we decided to buy it. We were bored of doing nothing and adventure was something we were dreaming of.

And this trip was really awesome! It costed \$45 per person and included: visit on cacao and coffee plantation, swimming in the cave and visit Macao Beach, called one of the most beautiful beach of [Punta Cana](#).

This trip is really worth going :). Below you can find useful informations about Bavaro Punta Cana Boogies Adventure:

Tips for Bavaro Punta Cana boogies

1. Take bandana or anything else to cover your mouth.

It is really dusty during the trip. We used our hats to cover our mouths, so it is good solution as well ☐

2. Buy coffee and cacao on plantation.

Prices are good and taste is delicious! You can buy mamajuana and cigars as well. These are great souvenirs for your family and friends.

We have never drunk such a delicious cacao! Dominican Republic had probably the best cacao on the world :).

3. Wear swimsuit to swim in cave.

It is really great to cool in this cold water :). There is no need to take a towel.

It is hot enough to get dry really quickly. Jumping is also funny. Too bad this place is always crowded and you can't spend much time in water.

4. Take your camera.

There will be many places to take good pictures.

There will be cameraman at your trip as well. You can buy some pictures from him but don't buy a video. It really sucks.
